### PROFILE

To become a successful expert in the field of Information Technology by channelizing my technical knowledge and skills to ensure personal and professional growth and to contribute to the prosperity of the organization.

### KEY PROJECTS:

- Project :Online- Cyber Cafe Management
- Technology: PHP and My SQL
- Duration:7 Months ( October 2023-march 2024)

Cyber cafe Management system project intends to solve the problem faced by the old system. This process is intended to automate the process of data storage and data retrieval easily. The flow of project starts when a customer enquirer for the availability of Computers for working an Internet/Browsing.

The admin checks the availability of computer and allocates the computer to the customers. Scheme facility is also been provided by our system. After the enquiry, the information of customer is given. All these records are stored in respective database.

In this project an attempt is made to design a computer system for the Cyber cafe that makes the management of recording user details, internet usage and billing much easier.
